My Mental Care

Year
2023

Scope
Web Development

Teleme/my mental care is a website that provides online consultation services. The initial stage of the website's operation is conducted through the completion of a questionnaire, which ultimately helps determine the doctor who will serve. Payment is made after the consultation takes place. The system is connected to online chat and meetings.

Web Development

GNB is a matchmaking web and mobile platform that connects guests with nearby male companions, with a primary focus on LGBTQ users. The service enables quick requests via LINE, flexible companion selection (manual or automatic matching), secure in-app cashless payments, and verified companions through a screening process. The platform is currently expanding across Japan.
